

## **TESTIMONIAL**

**What Terry's Ministry means to me is the support and friendship you could not pay some Therapist for! Why live with the Secret Sin wondering when you are going to get caught. Give Terry's ministry a chance. All the other places to go cost a small fortune, but his ministry is free, and look what it will cost you if you get caught, your job, your reputation and your families reputation and your wife's respect. Look at all your throwing away for a paper doll that doesn't care about you, one way or the other. Think about it, what do you want out of life, peace of mind or lose your mind?**

**Thank Terry, for Pure freedom Ministry**
