

I am a former prisoner of the Federal Prison system, sent there for six and a half years for possession of illegal pornographic material. However during my pre-trial period I searched for help and found very little other than expensive inpatient services. My daughter found Pure Freedom Ministries where I attended meetings for the six or seven months before I went to prison. At PFM I found understanding, care, support, and Christian fellowship, without criticism and judgement or fear that my problems would be spread around to others. I found that I am not alone and that some people willingly help rather than point fingers. Once in prison I was kept informed about meetings, PFM members, the undying Love of God and news of PFM changes on a fairly regular basis.

Pure Freedom Ministries is a group program for those with a pornography problem in their lives. Those who have gotten snared in its false promises of a good time, and immediate gratification.
